- Proprietary "Aqua Stop" Brush Reduces Water Usage by 20%

Minuteman®

More Than Just Clean

The Minuteman E20 SPORT is designed for easy, chemical-free surface preparation to effectively clean and restore floors.

Compact and sleek design.

Sophisticated technology with universal simple controls at your fingertips.

E20 Technical Data

Cleaning Path Width	20"
Squeegee width	33"
Theoretical Productivity	27,280 ft ² /hr
Working Speed	3.1 mph
Rated Voltage	24 volts
Vacuum Flow	65 cfm
Vacuum Water lift	45"
Vacuum Power	.60 hp
Drive Motor Power	1/5 hp
Brush Type	Disc
Brush Motor(s) Power	1 hp
Number of Brushes	1
Brush RPM	180-400 rpm
Solution Capacity	12 gallon
Recovery Capacity	13 gallon
Weight with Batteries	372 lbs.
Weight without Batteries	238 lbs.

Scrub Polish Or Remove Top Two Coats (SPORT)

SCRUB- Daily scrubbing is the traditional method used for daily cleaning floors. With Orbital machines you can daily scrub, but they require a higher cost of ownership due to isolator replacements.

POLISH- There are several different polishing systems on the market today. To accomplish a desired polish you need speed and heavy pressure which SPORT technology delivers.

REMOVE- A surface prep pad and the higher speed along with pressure, the operator can remove the top two layers of floor finish with out the use of chemicals. This method is called shower scrub and re-coat.

All of the features and the advanced technology that make the E20 Sport an outstanding daily auto scrubber are only enhanced by the integration of the SPORT technology. SPORT (Scrub Polish or Remove Top Two Coats) can easily and economically provide users with the means to perform chemical free surface preparation and or the removal of floor finish to effectively clean, polish, and restore floors.
